

FH 14.42

BASIC: Technical specifications

	Maximum lifting height: 13.5 m (2 extending sections)
GENERAL DETAILS	Maximum capacity: 4200 Kg
	Maximum capacity when fully extended: 500 kg
	Maximum capacity at full height:3000 Kg
	Operating weight: 11400 Kg
	Dimensions: 2330x6900x2500 mm
	Rear towing hook homologated to tow up to 6T
	Tool kit and flashing beacon
	Front outriggers
ENGINE	DEUTZ Engine
	4 turbo cylinders
	KW 75/HP 102 with liquid-run cooling system
TRANSMISSION	Fully automatic hydrostatic transmission with electrical control
	4 steering drive wheels
	2 forward and 2 reverse gears with sound signaler in reverse gear
	Towing capacity: 6000 Kg
	32 Km/h
HYDRAULIC	Manual distributor, proportional extension with roller - 110L/min - 250 bar
SYSTEM	Automatic reduction of moving speed with extended and lifted boom
DIFFERENTIAL AXLE	Servo-controlled braking system with combined inching function
	Rigid front axle, oscillating rear axle, with final epicycloidal reduction gear and self-locking differential, brakes with disc in oil bath and servo-controlled braking system, electrically/hydraulically controlled, integrated stationing and parking brake
TIRES	20" wheels (405/70-20 PR14)
САВ	King Cab, homologated in acccordance with ROPS-FOPS standards
	Oil level indicator lights
	Wheel alignment signaling lights
	Ventilation and heating systems
	Double door with opening in upper portion
	Adjustable seat with 2 armrests + safety belt
	Engine oil temperature indicator
	Water temperature indicator
	RPM Counter
	Gauge to check pressure for hydrostatic transmission maneuvering
	Arranged for installation of radio in cab
	Driving lights
SAFETY DEVICES	Movement lock mode engaged in case of overload, engine start with idle gear only, drive only with driving operator on board, automatic stationing brake with engine off and in absence of operator with engine running.

STANDARD INCLUSIONS

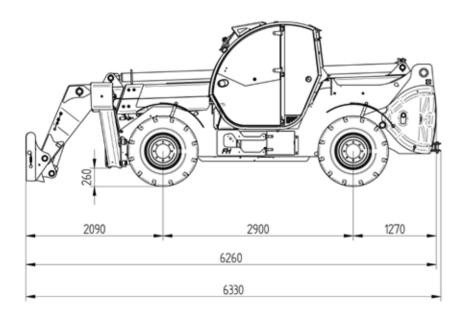

IVECO NEF 94KW/130HP Engine	
Air conditioning DEUTZ/IVECO	
4 work lights	
Boom head power socket	
Transversal leveling +/- 10°	
24" wheel kit (405/70-24 PR14) instead of standard 20"	
6 manual hydraulic services on boom head	
Quick horizontal release (recommended with option OPPI400004)	

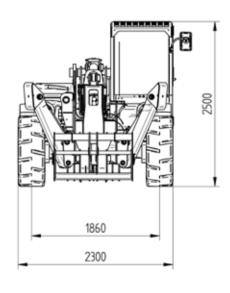

• Options included in the price

OPTIONAL

Front glass protective grille	
Remote control	
Heated right rear-view mirror	
2 dual-effect hydraulic power outputs on boom head (electric)	
Vortex pre-filter	
Water pre-heater Deutz	
Spark plug pre-heating (Deutz)	
veco engine air pre-heating system	
Water pre-heating - Iveco engine (220 V)	
Water pre-heating - Iveco engine (110 V)	
* High Speed Version - 40 Km/h	
* Proportional version	
Small boom with hook- C= 5 t - L= 500 mm	
Bucket without teeth - \mathbf{C} = 1 m ³ - \mathbf{L} = 2450 mm	
Two-seater front carrier basket (fixed) 800x2000 cm	
Pallet fork with fork holder plate -C= 4.5 t - L= 1200 mm	

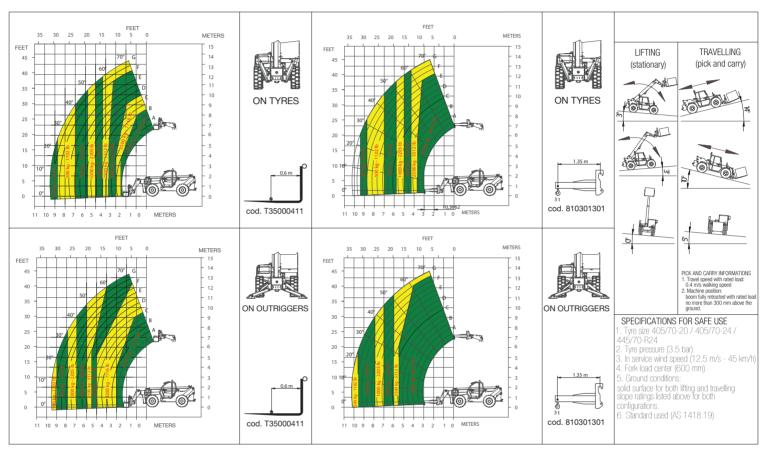

^{*} Optionals $\underline{\textbf{only}}$ available at time of order.
